15 million colonoscopies are performed annually in the U.S. by **8,500** gastroenterologists (GIs)
Up to **20%** of colonoscopy patients have symptomatic hemorrhoids
Often GIs do **nothing** for them

CRH Medical has created a paradigm shift by:

Offering the “gold standard” in non-surgical hemorrhoid treatment

Giving the GI the ability to provide a continuum of care for the patient

Providing a “turn-key” program for easy practice integration

CRH Medical is a device company that does more than distribution. They provide...

GI practices with:

- A significant source of new revenue
- Physician-physician clinical training and support
- Marketing support to help grow their business

Patients with:

- A safe, easy, and painless hemorrhoid treatment
- An effective procedure that doesn't require any downtime
- A procedure that's covered by most insurance plans

1 in 2 will have hemorrhoids
by age 50

THE CRH O'REGAN SYSTEM

Fast, proven, and painless treatment

Intellectual property

Product manufacturing

Marketing expertise

Direct to physician distribution

more than

560,000
procedures performed
